Introduction To Swift
Programming

iOS App Development Basics

App Design and
Development for iOS

Build Your Own iOS App

Apr 14, 2022

Mohamed Ali

has successfully completed the online, non-credit Specialization

iOS App Development with Swift

Master Swift, design elegant interactions, and create a fully functioning iOS app. This Specialization covered the fundamentals of iOS application development in the Swift programming language. Participants learned to use development tools such as XCode, designed interfaces and interactions and evaluated their usability and integrated camera, photo, and location information to enhance their app. In the final Capstone Project, successful candidates applied their skills to create a fully-functioning photo editing app for iPhone, iPad and Apple Watch.

Parham Aarabi
Professor
Department of
Electrical and Computer
Engineering

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
